Description

This pallet measures 1200 x 1000 x 130 mm. It has a grid-perforated deck set on nine block-style support feet in a 3 x 3 layout, with open space between the feet underneath. Made from recycled PP, it takes a 2000 kg static load and 1000 kg dynamic load. It is 4-way compatible with forklifts and hand jacks, and is both nestable and stackable.

This pallet suits warehouse and export handling where a lightweight, forklift-and-handjack-compatible pallet is needed. It nests down for space when stored empty, freeing up storage room between uses.
