Description

This pallet measures 1200 x 1000 x 160 mm. It has a flat, solid-surface deck panel with eight round holes arranged in two rows of four, and a ribbed edge profile along one side. Made from original-grade HDPE, it takes a 4000 kg static load, 2000 kg dynamic load, and 1500 kg racking load. It is compatible with 4-way forklift loading and 2-way hand jacks, and stackable.

This pallet suits cold-room and chilled-warehouse handling where HDPE construction holds up to low temperatures. Racking and forklift compatibility support storage handling.
