Internal Top	618 x 413 x 385 mm
Internal Bottom	572 x 378 x 385 mm
Material	PP
Volume	90 L
Nest / stacking	120 / 400 mm

Description

This tote box measures 660 x 445 x 400 mm, the largest in this range. Internal capacity is 618 x 413 x 385 mm, narrowing to 572 x 378 mm at the base. It holds 90 L. It has a hinged lid, ribbed side walls, and cut-out hand grips on the ends. A reinforced rib gives it a strong, solid body. The lid locks and seals shut. A card/label holder is built in for identification. Empty units nest down to 120 mm. Loaded and stacked, they sit at 400 mm.

This tote box suits secure storage and transport of bulkier loads where contents need to stay contained and identifiable. It works well for parts handling and general industrial storage. Nesting when empty and stacking when loaded keeps it space-efficient for transit and warehouse use. The locking lid keeps larger volumes of contents secure in transit.

Features

- Reinforced rib
- Nestable & stackable
- Lockable & sealable
- Comfortable handle
- Card & label holder
- Strong & solid body
