Description

This crate measures 635 x 420 x 398 mm. Internal capacity is 590 x 380 x 385 mm, narrowing to 535 x 325 mm at the base. It has perforated horizontal-slot side walls, an open top, and wire bail handles on the ends. Fold-down wire handles let it switch between stacking and nesting. It has reinforced carry handles, full mesh ventilation, and is washable. Empty units nest down to 48 mm; loaded units stack at 385 mm.

This crate suits agricultural handling of deeper loads where produce needs airflow during transport and storage. It nests down for space when empty and stacks securely once loaded.
