Description

This crate measures 695 x 490 x 420 mm. Internal capacity is 645 x 443 x 405 mm, narrowing to 585 x 385 mm at the base. It has perforated vertical-slot side walls, an open top, and wire bail handles on the ends. Fold-down wire handles let it switch between stacking and nesting. It has reinforced carry handles, full mesh ventilation, and is washable. Empty units nest down to 80 mm; loaded units stack at 400 mm.

This crate suits agricultural handling of larger loads where produce needs airflow during transport and storage. It nests down for space when empty and stacks securely once loaded.
