Internal Top	645 x 443 x 405 mm
Internal Bottom	585 x 385 x 405 mm
Material	PP
Nest / stacking	80 / 400 mm

Description

The 5712H-B is a full-mesh rectangular basket sized 695 x 490 x 420mm, built for repeated carrying and sorting work where airflow around the load matters, such as produce picking or laundry handling.

Swing-up wire handles double as stacking lugs when raised, locking the basket onto the one below for stable transport when full; folded flat, the basket nests down into the one beneath it to save space when empty. The wire handles also give a solid, comfortable carry grip when the basket is loaded.

Built in durable PP, this basket suits farms, distribution centres, and warehouses that need a ventilated basket carried and stacked daily.

Features

- Fold-down wire handles for stack or nest
- Full mesh ventilation
- Reinforced carry handles
- Space-saving when nested
- Washable
